

Oil Selective Absorbent Pads - OSP200-100

Oil selective pads absorb hydrocarbons, but repel water making them ideal for responding to land based spills when it is raining, taking "oil" off water or in any application where you only need to absorb hydrocarbons. These pads are bonded and fitted with a cover-stock to provide excellent wear resistance and market leading tensile strength and are perforated to allow you to use as much or as little as you need depending on the application.

SPECIFICATION	
Size	40cm x 50cm
Absorbs	Hydrocarbons but repels water
Capacity	0.5ltr per pad - 100ltr per pack of 200
Colour	White
Pack weight	6.4kg
